FOR BIGGER EUSINESS, ADVERTISE!

Frequent are the instances where people are seen pulling at doors on which the word "push" is plainly displayed. Such all too clearly illustrates the position of the man who wants to open the door to greater business and opportunity, but goes about it blindly, falling to give the proper attention and thought to what he is doing. He plunges ahead only to find that his efforts and energy have been wasted through lack of proper observation.

The entrance to bigger business is designated by the significant word "advertise." It is the medium which indicates the push of the business and puts the business pull into action where it belongs-the homes of the people who have money to spend. It is through advertising, in such columns as those of The Bulletin that time and energy are saved and results obtained. Such publicity means getting in touch with from 40,000 to 45,000 people every morning, and such advantage is an opportunity which no observing business man can afford to overlook. To advertise is to gain the attention of the buyers. As a publicist and business builder in city, town or county of Eastern Connecticut The Bulletin has no equal.
